Advertising in Face Book Magazine (FBMAG) and/or SA Magazines (SAMAG) allows you to expand your services, products, business to a much bigger market. In todays market this type of marketing is strongly linked with the internet and social media sites. Traditional paper marketing, allows only a few thousand people to see the advert, whereas the electronic method exceeds that multiple times. We are linked to over 700+ various groups on Facebook alone which majority have well over 50,000 subscribers in each group. Also this method of advertising is so much cheaper in the long run, as your advert is visible for full month or duration of your contract. Whereas traditional advertising allows 1 viewing in 1 publication for a day or a week. Link this method of advertising with a website and you then expand your business ventures many times over.
